10 tips for successful career planning. Randall S. Hansen, Ph.D. Career planning is not an activity that should be done once â€“ in high school or college â€“ and then left behind as we move forward in our jobs and careers. Rather, career planning is an activity that is best done on a regular basis â€“ especially given the data that the average worker will change careers (not jobs) multiple times over his or her lifetime. And it's never too soon or too late to start your career planning.Â

8. Set Career and Job Goals
Develop a roadmap for your job and career success. Can you be successful in your career without setting goals? Of course. Entrepreneurial spirit â€“ this is something that you might have seen in a lot of job post ads that you come across. Your track record may not be like Richard Branson, Lori Greiner, or Mark Zuckerbergâ€”The successful entrepreneurs are never greatly impacted by the defeats they encounter. For them, failure is like an opening for a success story, and hence, they try again and again just till they get the success they are expecting. Moreover, these entrepreneurs are not wired to believe that some things are not possible and cannot be done. 5. Creativity.
