False friends are the worst whether it comes to everyday life or language learning. Sneaking into our lives under the guise of something else, they often all show their real face when the damage is already done. In both cases, much embarrassment and unpleasantness can follow when coming across one under the wrong circumstances. False friends in language learning are and how to avoid them is the topic of today’s blog post. False Friends in Languages. Synchronic intralingual false friends, in return, refer to words that have confusing meaning in one and the same language. These can often occur when different dialects of one language are spoken, or simply two different versions such as American and British English.
