Here, six books to read to deepen an understanding of the connections between farming and food justice. 1. "Freedom Farmers: Agricultural Resistance and the Black Freedom Movement" by Dr. Monica M. White. Dr. White is assistant professor of environmental justice at the University of Wisconsin, Madison, and in this book, she reframes agriculture as commonly and historically understood as a site of Black oppression as a place of liberation. This book recovers the efforts of black landowners as well as the civil rights activism of sharecroppers, tenant farmers, and domestic workers.

2. "The Farming Handbook to End All Farming Handbooks" by Booth, Rintoul. Illinois helps advocate for accurate agriculture books about food and farming. Before Rosie the Riveter: L.A. Women and the First World War. During the First World War, L.A. women laid the foundation for the Rosie the Riveter feminism that followed decades later. The Farm Vegetarian Cookbook (later The New Farm Vegetarian Cookbook) is a vegan cookbook by Louise Hagler, first published in 1975. It was influential in introducing Americans to tofu, included recipes for making and using tempeh and other soy foods, and became a staple in vegetarian kitchens.

3. "The Farm is an intentional community founded in 1971 in Lewis County, Tennessee. Their diet is vegan, which at the time was uncommon in the United States. UNICEF, seeing an opportunity to examine a large group This book summarizes the current status of geothermal energy use in agriculture and agro-industry sectors around the world and seeks to provide developing countries with guidance on how to utilize geothermal energy to develop their agriculture and agro-industry sectors. Making economic corridors work for the agricultural sector.

4. The 2014 edition of The State of Food and Agriculture report considers innovations in family farms and their role in ensuring global food security, poverty reduction and environmental sustainability. Food Outlook - October 2014. This twice-yearly report focuses on developments affecting the world's food and feed markets and is closely associated with another major FAO publication entitled Crop Prospects and Food Situation. Agricultural Development; Farmers, Farm Production and Farm Markets; Vol 3 in Handbook of Agricultural Economics; Volume 18 of Handbooks in Economics - North Holland.
