This is a five book series that presents all the stories of the Bible, written in an easy to understand conversational style. Each story is presented in its simplest form and is accurate to Scripture. Another major difference in our society is how few Bible stories people know. Bible stories were not emphasized in their homes. As children, they attended children's programs where teachers were not taught how to tell Bible stories accurately and in an interesting way. As adults, they sat through sermons that only referred to Bible stories without telling them. Pastors simply said, "And of course, we know that story." BibleTelling is the rebirth of an old method of teaching the Bible. The stories are accurate to Scripture.

75% of the Bible was written in a story format. The Book was written by many different people over hundreds of years. It has also been translated from the original books many times over. To prove how fascinating the history of the Bible is, we have searched far and wide to find out more about the oldest Bible ever found. Before we get to that, however, we invite you to check out some of the oldest along the way:

- **The Bishop's Bible.** It was the primary translation for many years, and it was even brought to America by the Pilgrims on the Mayflower. The Geneva Bible was also the first mechanically printed Bible to be mass produced, and was widely available to the general public. You can still find the Geneva Bible today.

**Primary Sources.** The first books in the Christian bible are the holy books of the Jewish faith, collected in the Tanakh. "Tanakh" is an acronym of the three major divisions of the Hebrew holy book--the Torah ("teachings," also known to Christians by the Greek name "the Pentateuch" or "five books"), Nevi'im ("prophets"), and Ketuvim ("writings"). In Christian traditions these books are called "the Old Testament." There are a few cases of terms that crop up a lot in the books of the bible, but that get confused in everyday language. We just want to focus in on two; the different terms for "God's chosen people" in the Bible, and how God is identified and named. Study all Bible books online in over 50 translations.

- **Exodus** describes the history of the Israelites leaving Egypt after slavery. The book lays a foundational theology in which God reveals his name, his attributes, his redemption, his law and how he is to be worshiped. Leviticus. Leviticus receives its name from the Septuagint (the pre-Christian Greek translation of the Old Testament) and means "concerning the Levites" (the priests of Israel).
