Therefore, after reading this intriguing book, one can see that Thomas Jefferson helped America develop values of freedom and liberty. Thomas Jefferson, harsh childhood, endured many hard moments, which made him the man he was, and gave him the urge to do all he did for people. He is considered a universal hero, since he cared for others, and didn't judge people based on their social class. He was one of the few men in the world who though freedom was something everything deserved and he decided to change the world, since he though everyone was worth it.}

Thomas Jefferson has been closely associated with religious freedom for more than two centuries. In the first Supreme Court case addressing the religion clauses of the First Amendment, Reynolds v. United States, the Court unanimously agreed that Jefferson's Statute for Religious Freedom "defined religious liberty and "the true distinction between what properly belongs to the church and what to the State." His commitment to religious freedom grew from several inter-related sources. Politically, Jefferson believed that the new nation required complete religious freedom and separation of church and state. Many historians note that the broad diversity of ethnicities and religions in the thirteen colonies meant that religious freedom was necessary if the union was to be successful.
